

# Press Release

09 May 2005

## **BIOENERGY NoE LAUNCHES NEW WEBSITE**

**The temporary website of Bioenergy NoE has been replaced with a more informative and vibrant site.**

The site offers new information on Bioenergy NoE's research, partners and organisational strategy. The interactive homepage features a clickable octagon that allows users to access information on all eight partners and all eight research areas.

A diary lists all major bioenergy conferences and events throughout Europe and the world.

Go to [www.bioenergynoe.org](http://www.bioenergynoe.org) to browse the new site.

Sponsored by the European Commission's DG Research, Bioenergy NoE is a pan-European partnership of eight leading bioenergy institutes who are pursuing integrated research to take bioenergy into the marketplace.

ENDS
